## [Archiv] Alte Filehorstlinks von der U-Bahn Frankfurt Mai 2017

**Post by “Mika” of May 17th 2017, 4:58 pm**

RoineTrs Sadly I wasn't able to reconstruct any of the issues you had and the trains work fine on my PC.

The only thing I know you could try is making sure you really deleted the assets, then reinstalling them again and retry. I attached you both trains.

**Juergen said this is a problem occurring on [SP2](#). For now that means you have to use [SP1](#) if you want these trains.**

Greets, Mika
